

UNITED

LABORATORIES

The **O₂ PLUS Water Soluble Packets** consist of a special blend of granular actives that release oxygen into the waste stream within minutes!

- **O₂ PLUS Water Soluble Packets** provide low level oxygen over an extended period with time released formulation - reducing odor generation, stimulating beneficial biological activity and biological waste degradation.
- **O₂ PLUS Water Soluble Packets** provide a continual source of actives to stimulate biodegradation of grease and other organic wastes. The slow release formula of the **O₂ PLUS Water Soluble Packets** provides 60 – 90 days of grease and odor reduction (high flow rates can reduce effective time period).
- Contains a micro-nutrient package to provide additional bacteria food source.
- Ideal for lift stations, mains, sumps, grease traps and many other stagnant water situations.
- Reduces Odors
- Near Neutral pH
- Works at Temperatures of 48°F to 120°F

DIRECTIONS FOR USE:

Mains and Lift Stations: Dosage is based on flow. Under 50,000 GPD, use 2 water soluble packets; 50,000 to 100,000 GPD, use 3-4 packets.

Grease Traps, Sumps and Stagnant Water: 1 water soluble packet per 300 gallons or part thereof.

Specific sites may need different dosages. Call your United sales representative for special application needs.

Storage: Please keep pail lid tight and store in dry area.
