

# UNITED

L A B O R A T O R I E S

Chemically converts grease blockages into soap so waste can be flushed away with water. Normally, it will not cause any fumes when used according to directions.

## SEWER LINES:

In a regular maintenance program, add two to five gallons of **United 699** per manhole each month. Best application times are when water flow is reduced. For lines where there is no noticeable flow, let the solvent remain in the line for five to ten minutes, and then flush with water. **United 699** saponifies and liquifies grease and scum, so they are easily disposed of through normal sewer usage.

**United 699** is also useful as a lift station cleaner. **United 699** saponifies grease so it becomes soft soap and is easily dispersed into the water, and is removed when the pump actuates. The amount to use will depend upon the amount of grease to saponify. Normally, **United 699** will treat approximately TEN TIMES ITS OWN VOLUME that is, one gallon of **United 699** will treat ten gallons of grease waste.

AVOID FOOD CONTAMINATION.

## DANGER—POISON

AVOID BREATHING ANY FUMES, IF THEY OCCUR. CHEMICAL CAUSES SEVERE BURNS. KEEP OUT OF REACH OF CHILDREN. STORE IN A SAFE PLACE.

## DANGER:

Contains Potassium Hydroxide (CAS# 1310-58-3). May be fatal if ingested. Wear skin and eye protection when using. Causes severe burns on contact with eyes or skin. Harmful to shoes or clothing.

## EMERGENCY AND FIRST AID PROCEDURES:

**EYES:** Immediately flush with large amounts of water for at least 15 minutes holding eye lids apart to ensure flushing of the entire surface. Get medical attention immediately.

**SKIN:** Immediately wash contaminated areas with plenty of water for 15 minutes. Remove contaminated clothing and footwear and wash clothing before reuse. Get medical attention immediately.

**INHALATION:** Remove to fresh air; if breathing is difficult, have a trained person administer oxygen. If respiration stops, give CPR. Get medical attention.

**IF SWALLOWED:** DO NOT INDUCE VOMITING. Never give anything by mouth to an unconscious person. Give large quantities of water. If available give several glasses of milk. Get medical attention immediately.

NEVER ADD THIS PRODUCT TO DRAINS IN WHICH OTHER DRAIN CLEANERS HAVE BEEN USED. CAN CAUSE DANGEROUS CHEMICAL REACTIONS.

An MSDS for this product is available through United's website, [www.unitedlabsinc.com](http://www.unitedlabsinc.com), providing 24 hour access. Please read the MSDS carefully and follow all directions when using or handling this product. Never reuse empty containers. Incompatible materials may adversely react.

Always rinse empty container with water to remove all chemical before discarding. Never transfer contents to unmarked package. Store out of reach of unauthorized personnel.
