

Mask, break and eliminate Hydrogen Sulfide (H_2S) odors with...

United 894 **ZYME-OUT**

Degassing Agent and Odor Eliminator

Earth Smart®
formulation does
the job without doing
in the environment.

- Non-toxic according to EPA, OSHA, NIOSH and WHMIS standards.
- Water-soluble liquid disperses completely in water with no residue or precipitate from product.
- **ZYME-OUT** provides flocculent properties.
- Can be injected, misted or fogged. High concentration makes it very economical to use.
- Near-neutral pH.

- No hazardous components, no VOCs, ranked zero in all HMIS categories.

HMIS® CODE:

0=MINIMAL

1=SLIGHT

2=MODERATE

3=SERIOUS

4=SEVERE

PERSONAL PROTECTION INDEX:

Gloves and Goggles

HEALTH	0
FLAMMABILITY	0

PERSONAL PROTECTION	B

Degassing and odor control in wastewater treatment plants and industrial plants are as easy as 1-2-3 with *ZYME-OUT*.

- 1.** The fresh, mild vanilla scent covers odors to immediately help the problem.
- 2.** Within minutes, **ZYME-OUT** chemically reacts with the H_2S to break it into harmless molecules.
- 3.** As the reaction continues, the excess gasses are completely eliminated.
