LABORATORIES

United 981 LAGOON SHARKS with Inter-Core Technology are specially designed to biodegrade gasoline, diesel fuel and other organics in the sludge at the bottom of lagoons, treatment ponds and retention ponds.

The innovative Inter-Core Technology combines the staying power of proven block technology with the instant concentrated dosage of a granular active.

- The core of the **LAGOON SHARKS** consists of 10 billion CFU/g count of a special bacterial blend that is released as a slug dose into the lagoon within minutes.
- The **LAGOON SHARKS** block is a special blend of bacteria. The 10 billion CFU/g block is designed to release its bacteria over an extended time of 4 to 10 weeks.

United 981 LAGOON SHARKS are 8-ounce blocks that can be easily thrown into those areas where sludge has built up or throughout the entire lagoon as needed. Each 8-ounce block can treat up to 1500 square feet.

- Earth Smart® certified, making them safer for both the environment and the users.
- Contain no hazardous material.
- Easy-to-use.
- Treat 1500 square feet per block.
- Reduce sludge 20 to 50% in 60 to 90 days.
- Meets EPA Protocols 1664 and 1664A.

UNITED 981 LAGOON SHARKS will reduce the sludge levels in lagoon and pond systems delaying the need to dredge. This reduces the cost of dredging and reclaims treatment capacity.

DIRECTIONS FOR USE:

United 981 LAGOON SHARKS are 8-ounce blocks designed to be easily thrown into a lagoon system by hand, directly into the areas where a sludge build up has occurred. In large lagoons a small boat may be needed to help disperse the blocks. The Sharks should be spread out with 1 placed in each 1500 square foot area to be treated. Treat once every 3 months or as needed.

EMERGENCY AND FIRST AID PROCEDURES:

EYES: Flush eyes with cool water for at least 15 minutes while keeping eyelids open. If irritation persists, seek medical attention

SKIN: Wash with soap and water. Launder clothing. If irritation or redness persists, seek medical attention.

INHALATION: Not applicable.

INGESTION: Thoroughly rinse mouth with water. Drink one or two glasses of water. Slight gastrointestinal discomfort may occur.

An MSDS for this product is available through United's website, www.unitedlabsinc.com, providing 24 hour access. Please read the MSDS carefully and follow all directions when using or handling this product.
